•Oil Gathering Tips

If you try to move the oil too quickly, it will fall apart.

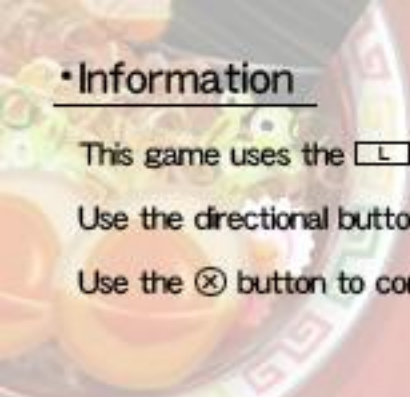

Large oil blots are particularly susceptible to falling apart.

Start with small blots of oil, then try moving larger ones once you get used to them.

•Items

Inside the bowl, obstacles such as lǎyōu and ingredients will get in your way. Not only that, various items will appear that will increase or decrease those obstacles.

Use these items to make trouble for your opponent and lead the way to victory.
